

## RCM+ Rack Mounted Vertical Cable Manager With Cover Double Sided High Density Plastic Finger Style

- Single-sided SB860 Series RCM+ vertical cable managers with extended fingers are designed for routing high density cabling by providing maximum cable support for each rack mounting space. Provides greater cable capacity with access doors and gates on the front and rear
- Front and rear vertical sections can be spaced apart when mounting on racks deeper than 3" (76mm)
- Compatible with RCM+ extended horizontal cable managers
- Stylized, full length doors, with quarter-turn locking hinges, allow for quick opening from either side or complete removal
- Six (6) snap-on gates retain cables when doors are opened or removed. Gates can be placed at any location
- Open back design allows unrestricted routing of cables between front and rear cables managers
- Installation is easy and can be done in minutes using standard hand tools
- Optional back removable covers are designed with pass through openings for cable routing, keyhole slots for cable spools, slots for cable straps, and keyhole slots for direct ePDU mounting
- 1/4" (6.3mm) accessory mounting holes run the full height on both sides of the cable manager to accommodate the attachment of cable management accessories
- UL Listed as a Communication Circuit Accessory. File No. E171936
- Material: Aluminum with UL 94V-0 black plastic components
- Finish\_\_\_: Flat Black Powder Coat (FB), Silver Powder Coat (SL), or Eaton White (EW)
- Vertical cable manager includes:  
(2) vertical cabling sections, (2) doors,  
(6) gates, (50) push-in fasteners,  
(12) cable strap mounts, (4) cable retainer bars and mounting hardware.  
On 10" and 12" wide cable managers only, (2) spool kits are included

U.S. Patent 7,362,941  
Other Patents Pending

Double sided,  
84" high x 6" wide

Finish\_\_\_: Flat Black Powder Coat (FB), Silver Powder Coat (SL), or Eaton White (EW)

✓ Popular items include (FB) 84" high in 3<sup>5</sup>/<sub>8</sub>", 6" and 10" widths

A = Height of RCM+ vertical section without doors

B = Distance between the top of the rack and the top of the RCM+ cable manager

C = Distance between the floor and the lowest part of the RCM+ cable manager
