

Couplings - Raintight

Images

Application

Bridgeport Fittings Mighty-Seal® product line is designed to provide quick and easy raintight connection to EMT raceways. The 261-MSRT installation is accomplished by inserting a properly deburred end of EMT into the end of the Mighty-Seal® and slightly rotating the UL listed fitting until the conduit reaches the end stop. Removal is accomplished by loosening the nut and removing the component parts from the end of the conduit. Reassemble the fitting in the reverse order of the removal process and re-use. Patented
