

Duplex to Single EMT

Images

Application

Set screw transition couplings used to join two 1/2" EMT to one 3/4" EMT. The Mighty-Merge™ Two to One can be used in commercial and institutional construction or OEM systems. When limited knockout space is available entering an enclosure or panel, use to separate or isolate circuits, can help speed up the installation and coordination in and out of block wall construction. Used in OEM designs requiring tight parallel raceway management. The single screw inspection cover provides for an easy access for tracing of conductors. An overall lower total cost compared to the traditional junction box installation. Patented. *Consult factory for 105° filler plug

Product Information

Material: Zinc Die Cast

Certifications & Codes:

UL File Number: c-UL-us, E20534

UNSPSC: 39131707

Patent Number: 8,242,369; D619,967

Catalog ID: 4256-DC

UPC Number: 78174794256

Description: Mighty-Merge™ Transition Fittings. Two 1/2" to One 3/4" EMT Coupling

Application: Set screw transition couplings used to join two 1/2" EMT to one 3/4" EMT. The Mighty-Merge™ Two to One can be used in commercial and institutional construction or OEM systems. When limited knockout space is available entering an enclosure or panel, use to separate or isolate circuits, can help speed up the installation and coordination in and out of block wall construction. Used in OEM designs requiring tight parallel raceway management. The single screw inspection cover provides for an easy access for tracing of conductors. An overall lower total cost compared to the traditional junction box installation. Patented. *Consult factory for 105° filler plug
