PRODUCT INSTALLATION

All Easy Heat SR Trace self-regulating heating cables must be installed with appropriate connection kits. These connection kits are available from Easy Heat and contain detailed instructions for connecting the cable to the power supply and/or other heating cables. Agency Approvals (UL or CSA) are only valid when appropriate kits are used to install the heating cable for the appropriate heating application.

▲ WARNING! FAILURE TO INSTALL EASY HEAT SR TRACE WITH APPROPRIATE CONNECTION KITS MAY RESULT IN FIRE, ELECTROCUTION, PIPE FREEZE-UP OR OTHER DANGEROUS CONDITIONS.

Easy Heat products are provided with a limited warranty: see owner's manual or contact Easy Heat for complete terms and conditions.
