

Fluke CS20MA Current Shunt

Overview:

The CS20MA Current Shunt is intended for use with any of the Scopemeter test tools for ac and dc measurements on 4-20 mA process control loops.

Specs:

Measurement type	Current shunt
Nominal current range	4 mA - 20 mA
Continuous current range	0 mA - 20 mA
Maximum Non-Destructive Current	20 mA
Lowest measurable current	0 mA
Basic Accuracy	0.1% (% reading + floorspec)
Useable frequency	DC - \geq 10 kHz
Output level(s)	10 mV/mA
Safety Specifications	
Safety	30 V
Maximum voltage	30 V
Mechanical and General Specifications	
Warranty	1 year
Shrouded banana plugs	Yes
