

LDC20-W

20 Space Indoor Load Center Cover and Door with Window

Indoor Load Center Cover and Door with Window NEMA 1, 20 spaces with mounting hardware

Leviton Indoor Load Centers are easy to install and feature a white enclosure housing white circuit breakers for a modern, appealing unit. All hot and neutral wires terminate at custom lugs in the panel, not at the circuit breaker*, so the entire panel can be wired at rough-in without circuit breakers installed. Branch circuit breakers are easily plugged-on at final installation. An optional observation window in the cover allows at-a-glance operating status of all the circuit breakers.

**For applications up to 60A when using copper wire; or 50A when using aluminum wire*

**Designed for Leviton Load Centers only*

UPC Code : 078477821909

Country Of Origin : China
