

# LDC30

## Brand Features

Leviton Indoor Load Centers are easy to install and feature a white enclosure housing white circuit breakers for a modern, appealing unit. All hot and neutral wires terminate at custom lugs in the panel, not at the circuit breaker\*, so the entire panel can be wired at rough-in without circuit breakers installed. Branch circuit breakers are easily plugged-on at final installation. An optional observation window in the cover allows at-a-glance operating status of all the circuit breakers.

*\*For applications up to 60A when using copper wire; or 50A when using aluminum wire*

## Item Description

Indoor Load Center Cover and Door NEMA 1, 30 spaces with mounting hardware

## Technical Information

### Product Features

**Color:** White

### Mechanical Specifications

**Dimensions:** 39" H x 16.25" W
