Renu is the Smart
Way to Update the
Look of a Room...
Now and Later

Vibrant colors.
Sculpted lines.
Instant makeover.

Once you install Renu, change is always at your fingertips. The collection, in popular colors, includes switches, dimmers and outlets with faces you can update yourself whenever you're ready for a new look - no rewiring or electrician needed. How smart is that? Very. If decorating is your passion, you'll love Renu.

Easy to Envision

Renu introduces a new aesthetic, with gently curved edges and sweeping lines. A white LED on the dimmer serves as a locator light, and matches any décor.

Easy to Install

Renu devices easily fit into the wallbox, are simple to wire, and have sleek, screwless wallplates that snap directly onto the devices.

Easy to Renu

Redecorating? Order a face kit in one of 20 colors. Renu faces snap off/on to change color or clean. Squeeze tabs to remove the switch face. Push down on hooks to remove the outlet face. The wallplates, slightly larger than standard ones to cover wall blemishes, snap off and on.

The Renu Palette

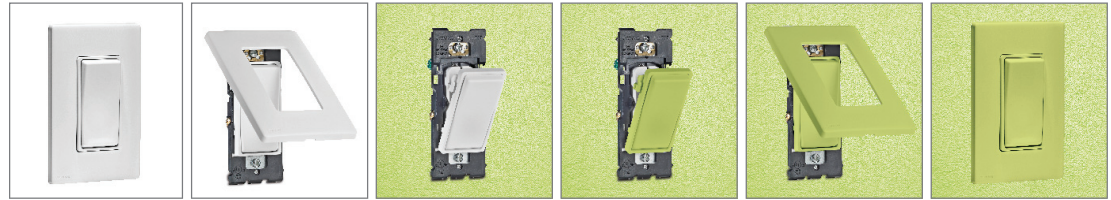

When only the perfect color will do, Renu.

Renu complements any décor, whether you want it to blend in with the walls or contrast with the trim. The collection is available in many popular shades.

Choose a color or take our palette to your paint retailer to match the walls to Renu. To order a specialty color or face kit, visit leviton.com/renu.

renu® in a snap!

Change faces without changing devices. Install it. Change it. Anytime!
