

N4 THERMOPLASTIC EMERGENCY UNIT

Navilite®

Product Features:

- Two round adjustable heads
- High performance reflector/lens assembly
- Redesigned snap-in assembly
- Choice of battery capacity and lamp wattage
- White or Black finish
- Available with remote load capacity

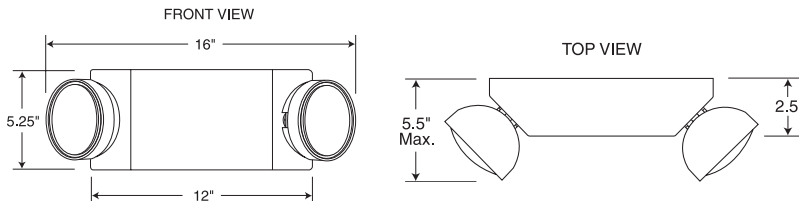

Designed to meet the user's demands, the N4 series of emergency lighting units embraces the feedback we received from our customers through the years. A PAR 36 size round reflector combined with a spread lens deliver a beam pattern optimized to illuminate the path of egress. The different lamp configurations can increase the spacing between fixtures reducing wiring, installation, and maintenance costs. A redesigned snap-in construction improves the ease of installation.

N4 Thermoplastic Emergency Lighting Unit

	Catalog #	Finishes	Lamps	Remote Capability
Standard Units	N4WH N4BL	White Black	Two 6V 5W T5 Wedge Base	
High Performance Units	N4WHHO7	White	Two 6V 7.2W T5 Wedge Base	
	N4BLHO7	Black		
	N4WHHO9	White	Two 6V 9W T5 Wedge Base	
	N4BLHO9	Black		
	N4WHHO10 N4BLHO10	White Black	Two 6V 10W T5 Wedge Base	
Remote Capable Units	N4WHHO N4BLHO	White Black	Two 6V 5.4W T5 Wedge Base	Up to 10.8W

Dimensions

Recommended Fixture Spacing

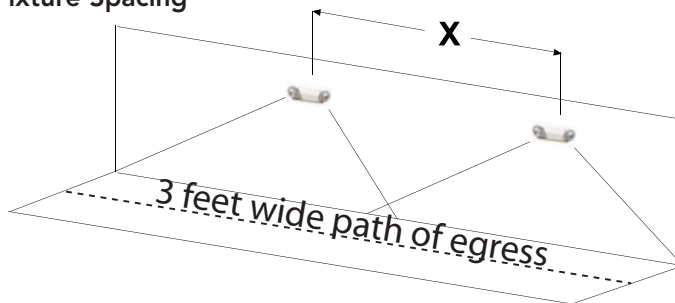

3 Feet Wide Path of Egress		
Lamp	Spacing (X)	Ave Illumination
6V 5.4W	18.5 ft.	1.03 FC
6V 7.2W	22 ft.	1.04 FC
6V 9W	26 ft.	1.03 FC

Fixture spacing calculation:

Room reflectances 80/50/20 ceiling, walls, and floor respectively
 Fixtures mounted 7' from the floor for 5.4W and 7.2W lamps,
 and 7.5' from floor for 9W lamps

Values represent an approximation and are based on an open environment
