

Robust construction and high amperage capabilities

DR series plugs and receptacles provide safe, economical and robust connections for applications up to 250A. Some DR models are non-current interrupting rated, while others are suitable for current interruption on resistive loads (see table on next page). The DR's spring-loaded, silver-nickel butt contacts and dead front construction provide more consistent and reliable connections and significant improvements in operator safety compared to competitive devices.

Main Advantages

- High amperage capacity
- Up to 6 auxiliary contacts
- Robust Metal or Poly construction

General Ratings

Amperage	30 to 250A
Voltage	600 VAC
Frequency	50-400 Hz
Short-Circuit (Withstand)	10kA to 100kA*
Environmental	Type 3R, IP54/IP55**
Temperature	min -40°F/max 140°F

- DR30, 50 and 100 are 100kA; DR150 and 250 are 10kA
 Testing was performed with RK1 current limiting fuses sized at at least 100% of the devices ampacity ratings.
- ** IP54 rated when receptacle and plug are mated, when not mated receptacle alone is IP55 rated provided that the lid is latched closed.

Operating Instructions

When the plug and receptacle are latched together, the circuit is connected.

Pressing the pawl causes the DR to break the circuit. The plug is ejected to its rest position; its contacts are now dead.

Rotating the 'dead' plug 30° counterclockwise closes the safety shutter and frees the plug to be withdrawn from the receptacle.

The plug and the receptacle are separated. The safety shutter prevents access to live parts.

To reconnect, insert plug into receptacle, twist slightly, and apply insertion force.

Feature Spotlight – Easy Closing Mechanism

A new and simplified closing mechanism is now standard on the DS100 and DS200 plugs and receptacles. This compact mechanism enables easy connection of the plug to the receptacle.

Notes: After connection, the mechanism must be released to allow disconnection of the device.

The plug is partially inserted, clamps are placed around tab, ready to pull the plug into the receptacle.

The handles are pushed down, the plug is fully drawn into the receptacle.

Order Example

A typical order should include an inlet part number, a receptacle part number **AND** the matching handles, angles or other required accessories.

Female Receptacle with Angle Adapter 39-94243-K04 + MA10

⁺ Mounts on oversize box only. Order with MB220 box. See page 152.
