Comments about M18™ Cordless LITHIUM-ION System M18 FUEL™ 1/2" Drill/Driver Kit:

I bought this drill along with a replacement 28v hammer drill. The fuel drill worked great for about month until the chuck retaining bolt snapped. This seemed as a freak incident, until a week later my boss's drill did the same thing. Im Disappointed since I talked my boss into buying Milwaukee instead of dewalt.

BOTTOM LINE No, I would not recommend this to a friend

Comments about M18™ Cordless LITHIUM-ION System M18 FUEL™ 1/2" Drill/Driver Kit:

I use this drill to drill holes from 1/8" to 3/4" in concrete wood or metal. It has plenty of power to do what ever I need it to do.

It dosent heat up as quickly as my other 1/2" drill

If your a professional i would recommend the drill with the larger battery pack. Getting more done means more \$

if they would find away to take all the "slop/play" out of the forward/reverse selector switch and maybe a switch to cut the led light off instead of it being all the time , but non the less its a great tool and deff. better than any other cordless ive ever had

Best ever! Amazing. The best drill I have ever used and I have used them all. I am a cabinet maker and use power tools everyday. This drill beats them all for power, speed, and run tim. Fit & finish are excellent. It performs like an electric. I was so impressed I bought 2 of them. One for my home shop and one for my cabinet shop.

Comments about M18™ Cordless LITHIUM-ION System M18 FUEL™ 1/2" Drill/Driver Kit:

This drill looks and feels awesome, and when you not only see but FEEL the power, there is no going back. Decimates the competition and makes all others feel like 9.6v- if you have a 20v MAX or Makita, it is time to trade up!!! Tried last week and will be buying one as soon as it hits stores!!
