
FUSIBLE SAFETY SWITCH, 100 AMPS

PS100FSS | [Pass & Seymour](#)

FEATURES & BENEFITS

Fusible Safety Switch, 100 Amps, 600 VAC.

The first-ever blown-fuse indication system that's in our pacesetting Fusible Mechanical Interlocks — with individual LED indicators for each line, patent-pending integral fuse pullers, and a hinged fuse-access door. P&S Fusible Safety Switches deliver the same ultra-heavyduty construction as our Fusible Mechanical Interlocks, too. So they provide maximum protection against water, dirt, heat, and vibration — and just about any other harsh condition you'll encounter.

- **Compact design** fits in most I-beams to provide mounting versatility, easy access, and reduced possibility of impact damage.
- **Corrosion-resistant, stainless steel captive screws** speed installation, minimize risk of lost parts, and withstand abuse.
- **Captive, quick-release, stainless steel screws** speed fuse removal, ensure a watertight access door seal, and won't fall out.
- **Time-saving LED indicators** identify blown fuses at a glance.
- **Heavy-duty steel-gear switch mechanism** provides enhanced durability and extra-long service life.
- **Heavy-duty, ergonomic switch handle meets OSHA Lockout/Tagout requirements** and provides plenty of grip for sure, easy operation.
- **Black/red color coding and high-visibility ON/OFF markings** clearly indicate status from a distance and at any visual angle.
- **Separate door** for ease of changing fuses.
- **Durable, stainless steel cover-retaining chain** makes installation and maintenance more convenient.

SPECIFICATIONS

GENERAL INFO

Type: Fusible Safety Switches

LISTING AGENCIES/THIRD PARTY CERTIFICATIONS

RoHS: Yes
cULus: Yes
UN SPSC: 39121403

DIMENSIONS

Height: 28.31

TECHNICAL INFORMATION

Amps: 100A
Volts: 600VAC
Volts (AC): 600
