Applications

- Concrete rings are used with poured deck floor construction
- These boxes are installed on wooden or steel concrete forms. After the forms are removed, the box is flush with finished

- concrete surface
- Cover plate must be ordered separately

Product Features

- Flat sides provide excellent contact for locknuts
- External ears are used to nail the ring to the wood form
- Ears on inside of box are for fixtures (not designed for ceiling fan support)
- Waxed fixture ears prevent concrete from interfering with the threads
- Variety of cover plates are available
- Cover plate must be ordered separately with all (except 280 which includes a 891 cover)

Compliances
